# MEETING ALERT

## **St Marys Cement's Aggregate Licence Application has been Accepted! Now What?**

St Marys Cement's resubmitted Aggregate Resource Act (ARA) Licence application for the proposed Flamborough quarry has been accepted as complete by the Ministry of Natural Resources (MNR).

Now, more than ever before, is the time we need to make our voices heard. An initial review of the application material has been completed. Join your neighbours on April 15, 2009 to hear a summary of the application details and an explanation of the ARA application process.

It is critical that we submit our formal written objections during the brief 45 day timeline allowed. Objection letter templates will be available for submission at the meeting.

**Wednesday, April 15, 2009 (6:30 p.m.)**

**Presentation at 7:00 p.m.**

**Our Lady of Mount Carmel**

**Catholic Elementary School**

**1624 Centre Road, Carlisle, Ontario**

Together We Will Succeed!
