

## Letter of the week

Published on Apr 16, 2009

**Dear Editor,**

Thank you for all of the recent coverage about St. Marys Cement and its application to develop a quarry in our community. I was able to put this week's FORCE meeting and the upcoming company open house into my calendar.

I did not even find the tiny community notice ad that St. Marys Cement, my so-called "good neighbour", placed in the *Review's* April 3rd edition about its license application and open house, until a real neighbour drew it to my attention.

Please keep up the good work! Your local paper is an important source of information on this community issue, especially for those of us who do not have Internet service. I look forward to reading about what is happening over the coming weeks.

**Bev Childs, Campbellville**
