Survey Responses: **Carol D'Amelio**, candidate for **Mayor, Burlington**.

1. Currently, only municipalities can make a request to the Province to grow the Greenbelt, and they are responsible for implementing the Greenbelt Plan. Do you support growing the Greenbelt within your municipality and/or strengthening support for Greenbelt protection in your municipality?

Yes

2. In order for the Greenbelt to remain protected, municipalities must adhere to the Province's Places to Grow strategy, specifically, the Growth Plan for the Greater Golden Horseshoe, while respecting the protections under the Greenbelt Plan. Do you support concentrating development within your municipality's existing urban boundary, while limiting further urban expansion into farmlands or greenfields?

Yes

I have supported the protection of Burlington's rural area since 1995. The Greenbelt Plan supported my position.

3. New roads and other infrastructure fragment the natural areas of the Greenbelt, threatening its ecological integrity by destroying connections between natural heritage features. Do you support urban planning that would facilitate enhanced infrastructure for cyclists and pedestrians, an efficient public transit system, increased funding for public transit and/or improving links to regional public transit systems?

Yes

Absolutely!

4. Strong market demand in urban areas near the Greenbelt for locally-grown foods supports a viable agricultural sector in the Greenbelt. Do you support the creation of a policy in your municipality that favours purchasing locally-grown foods for municipal facilities like nursing homes, day care centres and City cafeterias?

Yes

6. Water is a precious resource, yet Canadians continue to be one of the biggest per capita water consumers in the world, using almost double the amount of other developed countries. Do you support creating the water conservation policies necessary to offset new residential water demand for your municipality?

Yes

7. Given the need to reduce Ontario's contribution to climate change and foster the creation green jobs through investment in the green energy economy, will you support the removal of local barriers to facilitate the development of renewable energy projects in your community?

Yes

8. Although aggregate (gravel) extraction is a permitted land use in the Greenbelt Plan, it continues to have huge negative impacts on the natural environment. Would you pursue a procurement policy that requires the highest level of recycled content allowable in municipal works projects, and situates aggregate extraction in areas away from sensitive natural heritage and source water features?

Yes

9. Do you support changes to the Ontario Municipal Elections Act to require that donations to candidates come only from electors in the municipality where the candidate is running, and that union and corporate contributions are banned?

No

It would exclude people who were not wealthy enough to run. Fortunately, I was able to afford my 5 previous election campaigns for the council position however I could not afford to run for Mayor without corporate donations.

10. Do you support the Region of Halton's Natural Heritage System and will you oppose any attempts to locate new highways through it?

Yes, I support the Halton Natural Heritage System and yes I oppose locating new highways through it. I was on Council when we previously had this fight with the province and my position has not changed.

Will you vote on Election Day, Monday October 25, 2010?

Yes No

I will vote on Election Day, Monday October 25, 2010
