## Introducing **St Marys Cement Group** to Your Community

St Marys Cement Group recently purchased Lowndes Holdings Corp. which owns the site of the proposed quarry located on 11th Concession Road East at Milborough Line.

### **Who we are...**

A leading manufacturer of cement and related construction products, St Marys has contributed to Ontario's growth and prosperity through countless engineering, civic and residential building projects. But that is only part of our story. We have stayed in business for more than 90 years because we are a good neighbour.

### **How we do business ...**

St Marys works closely with residents, community groups and government to minimize the impact of our operations and to address environmental concerns. We have earned widespread recognition for our efforts to preserve and enhance the environment and for our innovative rehabilitation programs.

### **Working together...**

Residents near quarry sites often have questions about how the operation will affect them. Over the years, St Marys has developed strict guidelines to minimize our impact. We are committed to partnering with residents to resolve issues on an ongoing basis.

As we move forward, we will seek your input every step of the way. We will hold information sessions to keep you updated and discuss any issues. We look forward to demonstrating to you what communities across Ontario already know – that St Marys is a caring and responsible company, and a good neighbour.

If you have any questions please get in touch with us.
